

Customized Services

At ROE Logistics, we understand that there are no cookie cutter solutions to all supply chain management needs. Whether you require a special report, certain capabilities such as EDI or a specific procedure, ROE Logistics will go the distance to meet your needs.

- Dangerous Goods: Handling/Transporting Hazardous Materials (Explosives, Corrosives)
- Implant Personnel
- Logistics Services
- Integrated Information Management
- Electronic Data Management / Reporting
- E-Commerce Solutions
- Bulk Inventory
- Electronic Data Interchange (EDI) Services

There is no such thing as an unreasonable request. Please contact one of our representatives for more information on how we can develop a program adapted to your needs.

Customized Services

From pick and pack services to return logistics management, ROE offers a complete warehousing and distribution package. Each customer is unique and has different requirements. We evaluate all our customer's business needs and develop programs that are tailored to their specifications to improve supply chain performance for bottom-line returns. You can be assured that your merchandise is in good hands. We will handle your merchandise with the same care and diligence that your company would.
