Customs Consultation Services

- Compliance Audit
- Individual Customer Profile Reports
- Claims and/or Refunds
- Tariff Analysis
- NAFTA Compliance
- Valuation
- Duty/Tax Recovery
- AMPS Compliance Consultation

The importer's responsibility has never been greater with both Canadian customs and US customs authorities shifting to the "self-compliance principle" that holds importers accountable to comply with a maze of government regulations. Let ROE Logistics consultants untangle the maze and assist with your self-compliance efforts.

AMPS

The Administrative Monetary Penalty System (AMPS) regulations require that harmonized tariff classifications are accurate to the 10th digit. ROE Logistics can assist you to ensure compliance under the Canada Customs Revenue Agency (CCRA) AMPS programme to avoid monetary penalties which may occur as a result of a customs audit. For a consultation or an AMPS audit, please contact one of our customs specialists today.
